

Sharing online content with your colleagues

TAM / TAM

● Probleem

Overkoepelend:

Information overload: heel veel online content

Wat is relevant voor jou?

Bestaande oplossing:

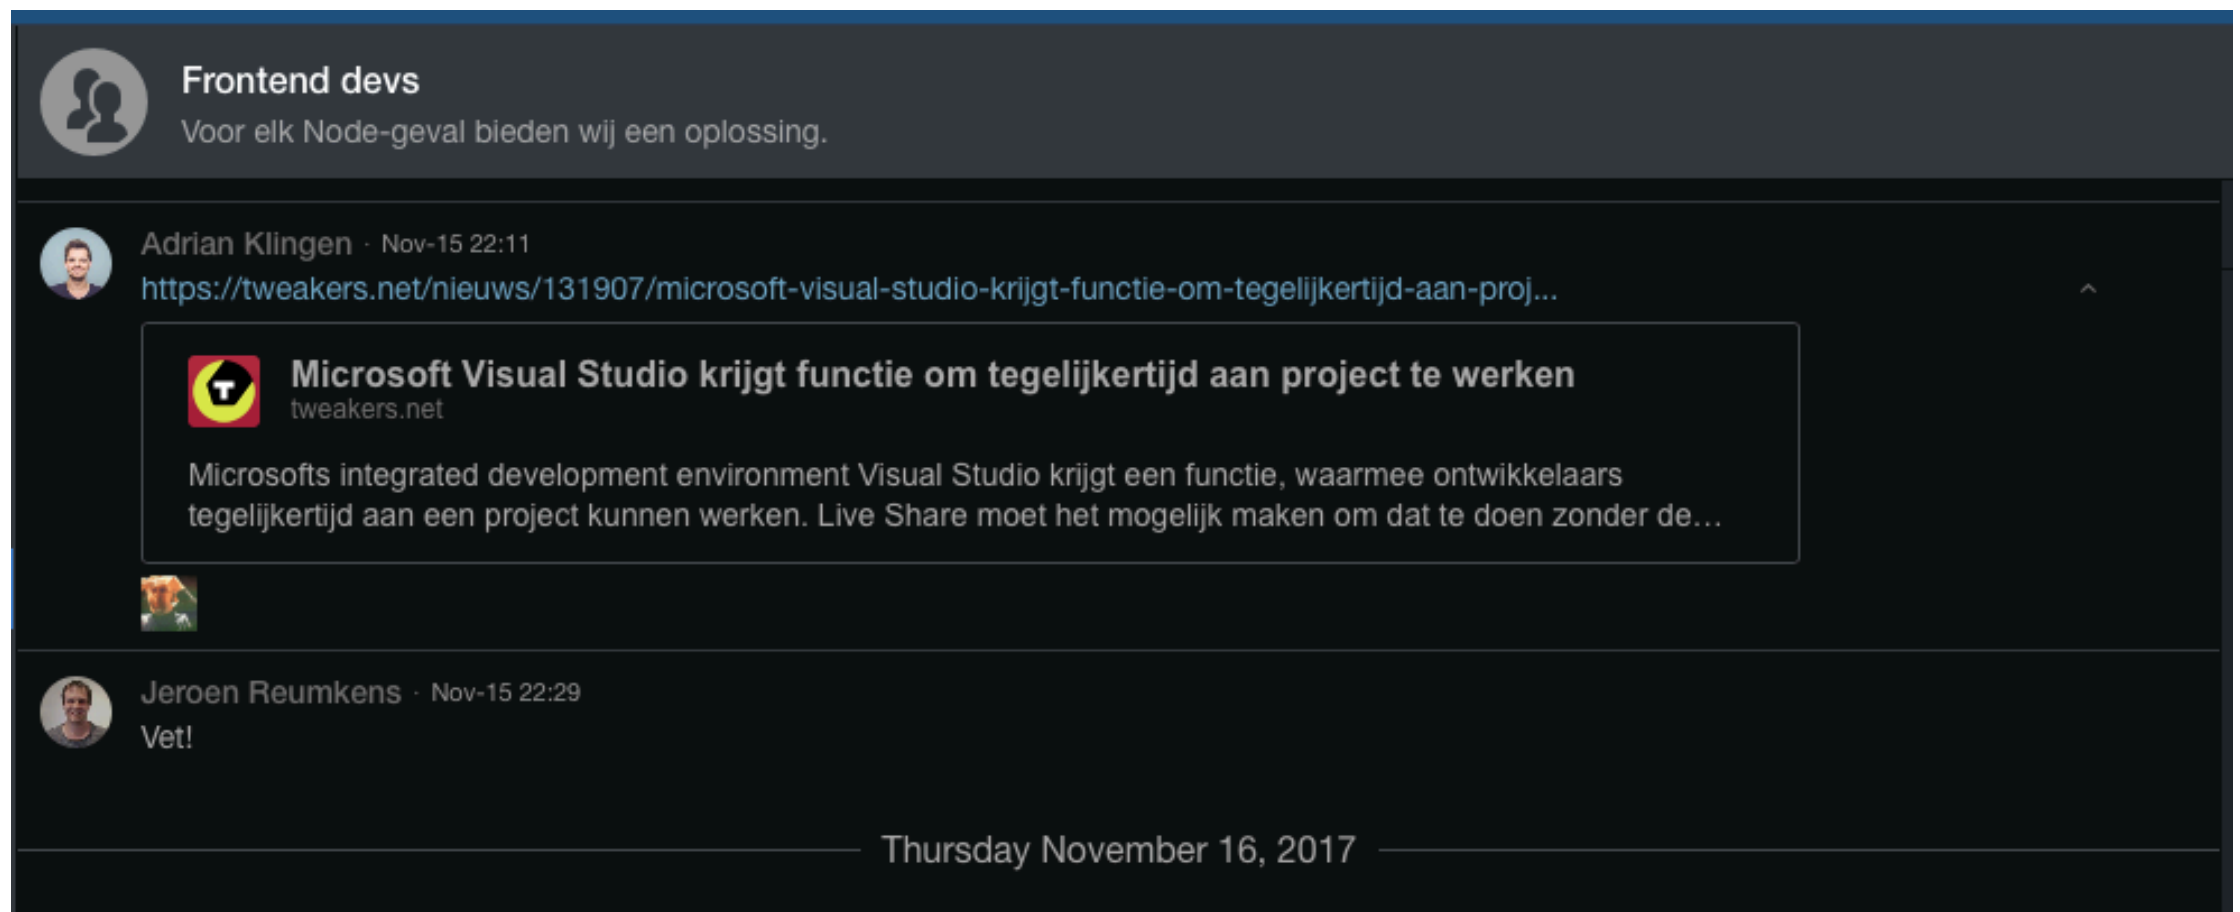

Collega's delen content die relevant is voor jou

Werkwijze, technieken, klanten etc..

● Probleem

De manier waarop:

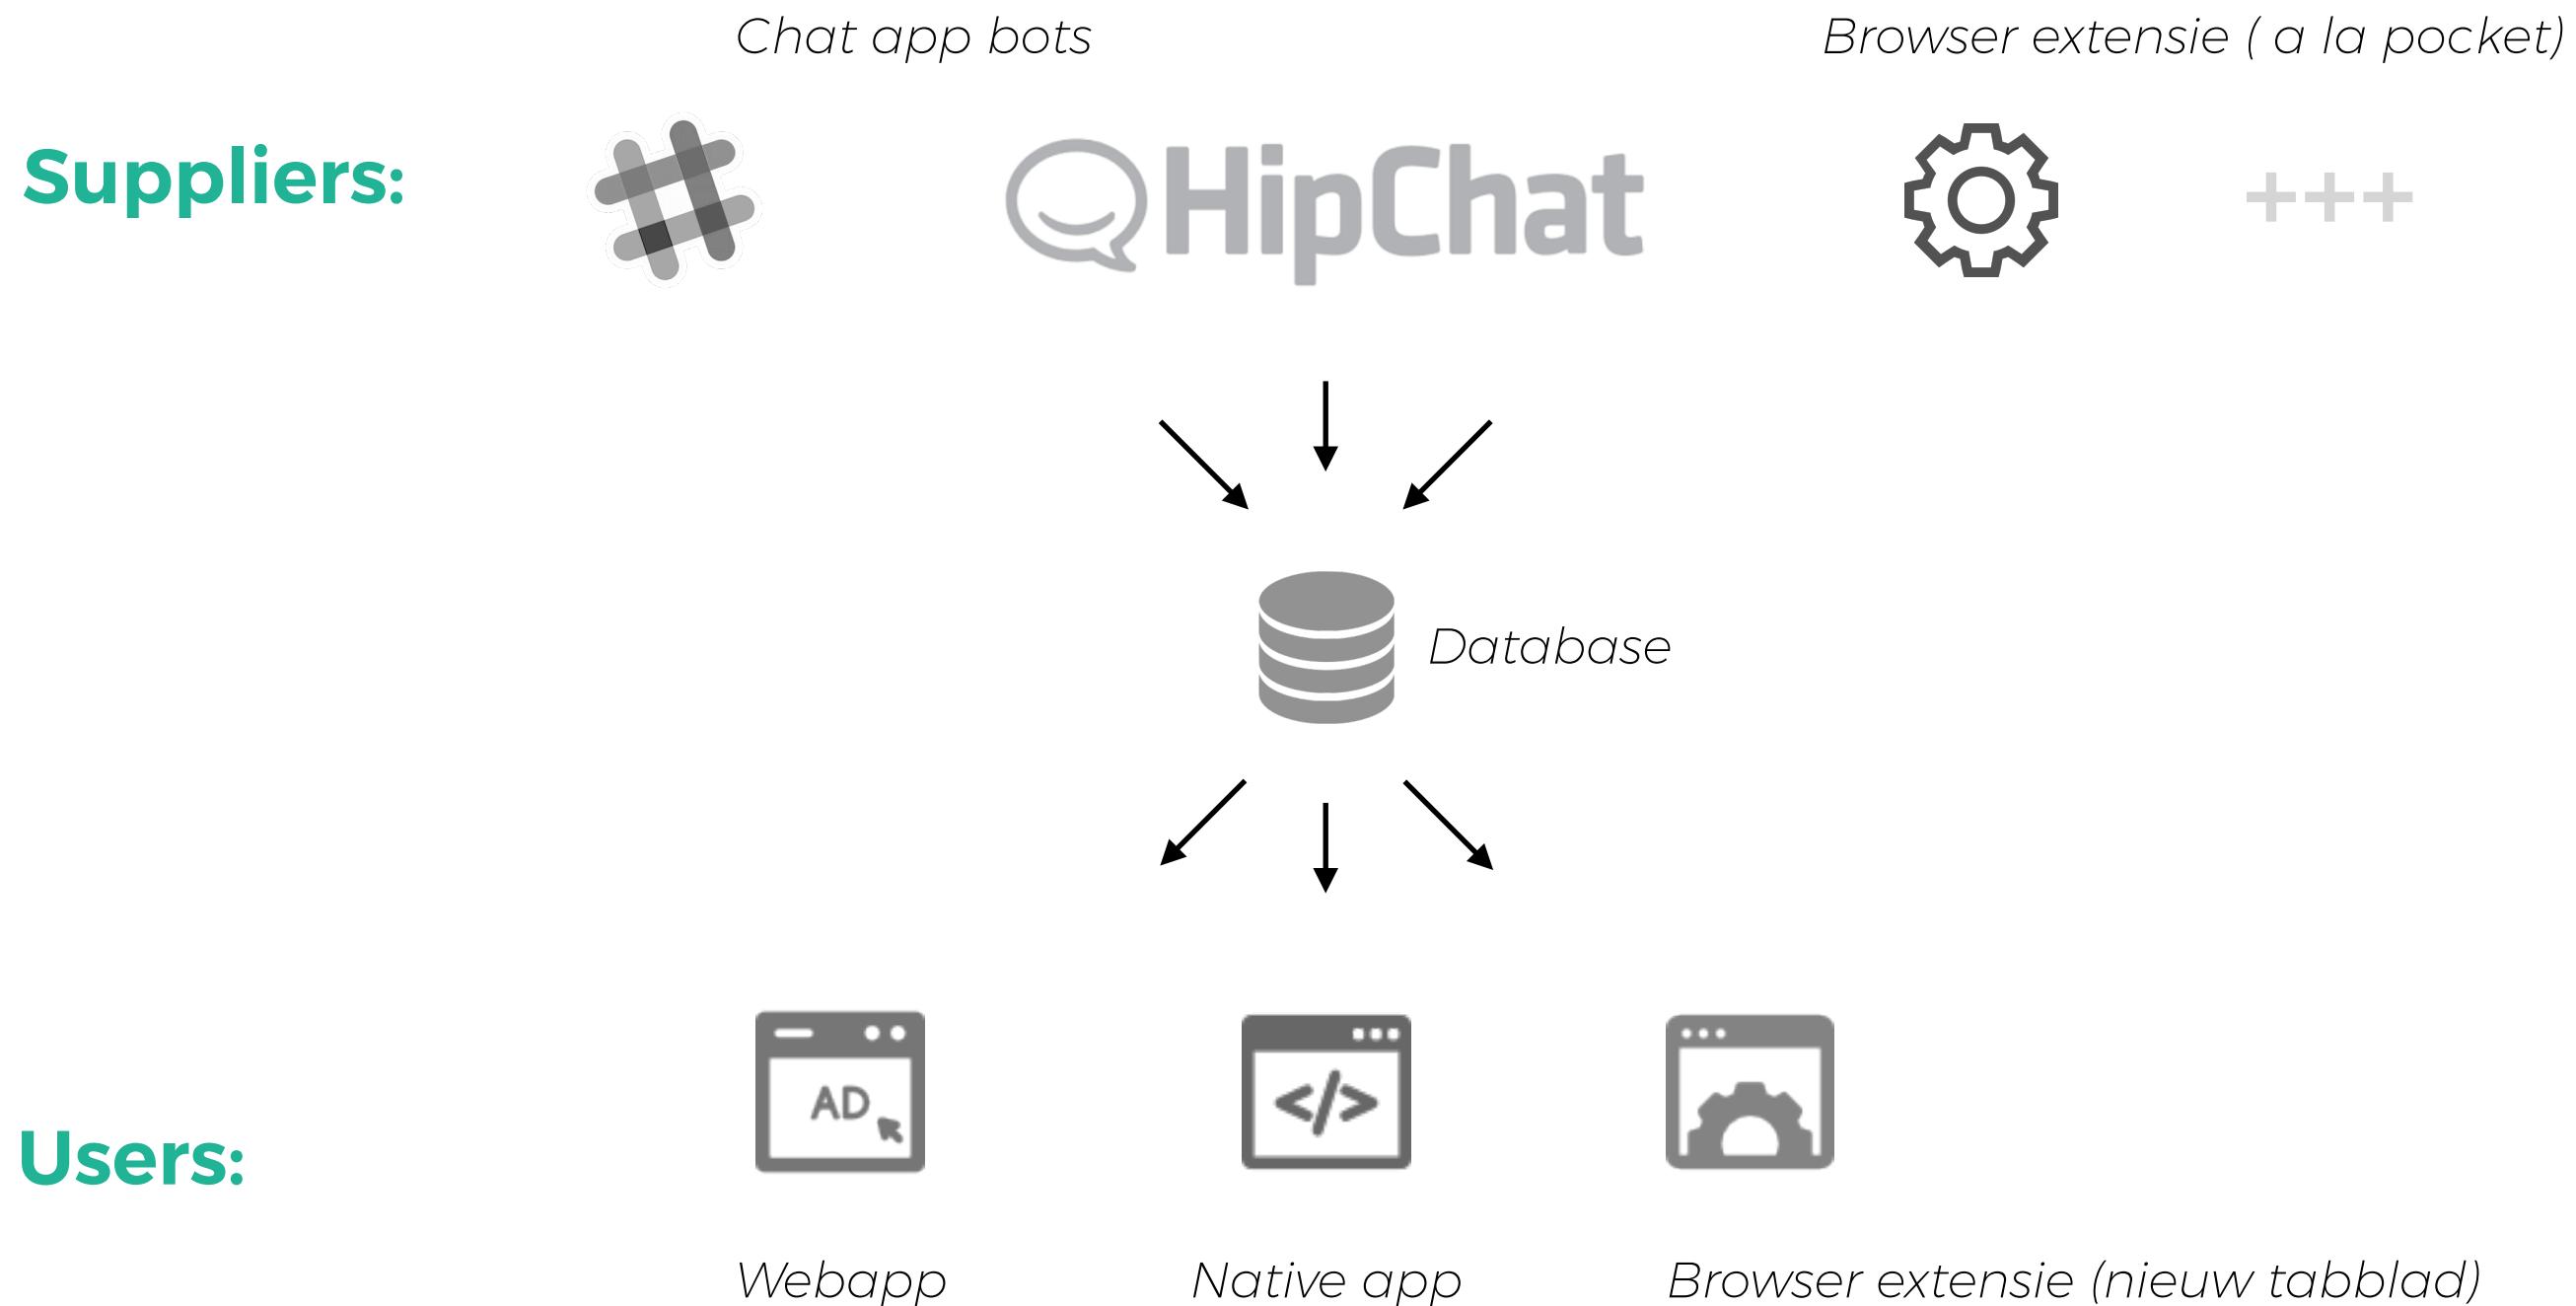

Opslaan en delen van de online content is niet efficiënt.
kan beter

Gedeelde content verdwijnt in de chat feed

● Oplossing

Een online ecosysteem met user curated content

React is the way to go

We evaluated all front-end frameworks before working on a major new version of our product, JotForm 4.0. After a series of Hack Weeks to kick tires of modern web front-end libraries, we concluded that React was the best fit for our needs...
